Biographic Data Requirements for BR

There is a continuing need for biographic information on individuals serving in the following positions:

I. USSR

A. State Committee for Aviation Technology (GKAT), formerly Ministry of the Aviation Industry (MAP).

1. Ministers
2. Deputy Ministers
3. Chiefs of Chief Directorates
4. Any other important positions.

B. Aircraft Production Sites (including airframe, aircraft engines, and aircraft components plants). Although these plants are seldom located by name or number, reference sometimes is made to a plant producing a certain type of aircraft. Information on any personalities mentioned in such a connection is of value.

1. Plant officials, including director, deputy director, chief or leading engineer, chiefs of shops or departments.
2. Any test pilots mentioned in connection with the activities of the plant.
3. Designers connected with production at the plant.

C. Specific Aircraft Types

1. Officials connected with the design and development of the aircraft.
2. Crew members used for testing the aircraft.
3. Officials concerned with planned production of the aircraft.

SUBJECT: Biographic Data Requirements for BR

D. Civil Air Fleet (CAF)

1. Chiefs (directors)
2. Deputy chiefs (deputy directors)

E. Aircraft Design Offices

1. Chief Designers
2. Deputy Chief Designers
3. Leading Engineers

II. European Satellites

A. Aircraft Production Sites

1. Directors
2. Deputy Directors
3. Leading Engineers

B. Aircraft Design Offices

1. Chief Designers
2. Deputy Chief Designers
3. Leading Engineers

III. Communist China

A. Aircraft Production Sites (including airframe, aircraft engine, and aircraft components plants). Although these plants are seldom located by name or number, reference sometimes is made to a plant producing a certain type of aircraft. Information on any personalities mentioned in such a connection is of value.

1. Plant officials including director, deputy director, chief or leading engineers, chiefs of shops or departments.
2. Any test pilots mentioned in connection with the activities of the plant.
3. Designers connected with production at the plant.
4. Students involved in design or construction of new types of aircraft.

SECRET

SUBJECT: Biographic Data Requirements for AR

5. Numbers of co-ops involved in design or construction of new types of aircraft.

B. Aircraft Design Offices

1. Chief Designers
2. Deputy Chief Designers
3. Leading Engineers
